

NetRex services up close

We pride ourselves on **quality hardware** and services that are practical and have **simple, user-friendly controls**.

How the NetRex solution works

High quality cameras

Choose top IP cameras from the leading Swedish manufacturer Axis Communications. We have been using them for all our solutions for more than 16 years and they are very reliable.

Cloud platform

You can easily connect the cameras and any other network elements to a cloud-based platform that offers complete remote management and many other features.

Wide range of services

A range of practical services are available on the platform: surveillance with recording, retail analytics, time-lapse video, streaming, reading vehicle registration plates and more.

What we provide for you:

The solution proposal

We will build a **solution that suits your needs** using the catalog of our services.

Installation and training

Our team will **install** everything for you and **explain** in detail how the system **works** and how to **operate it**.

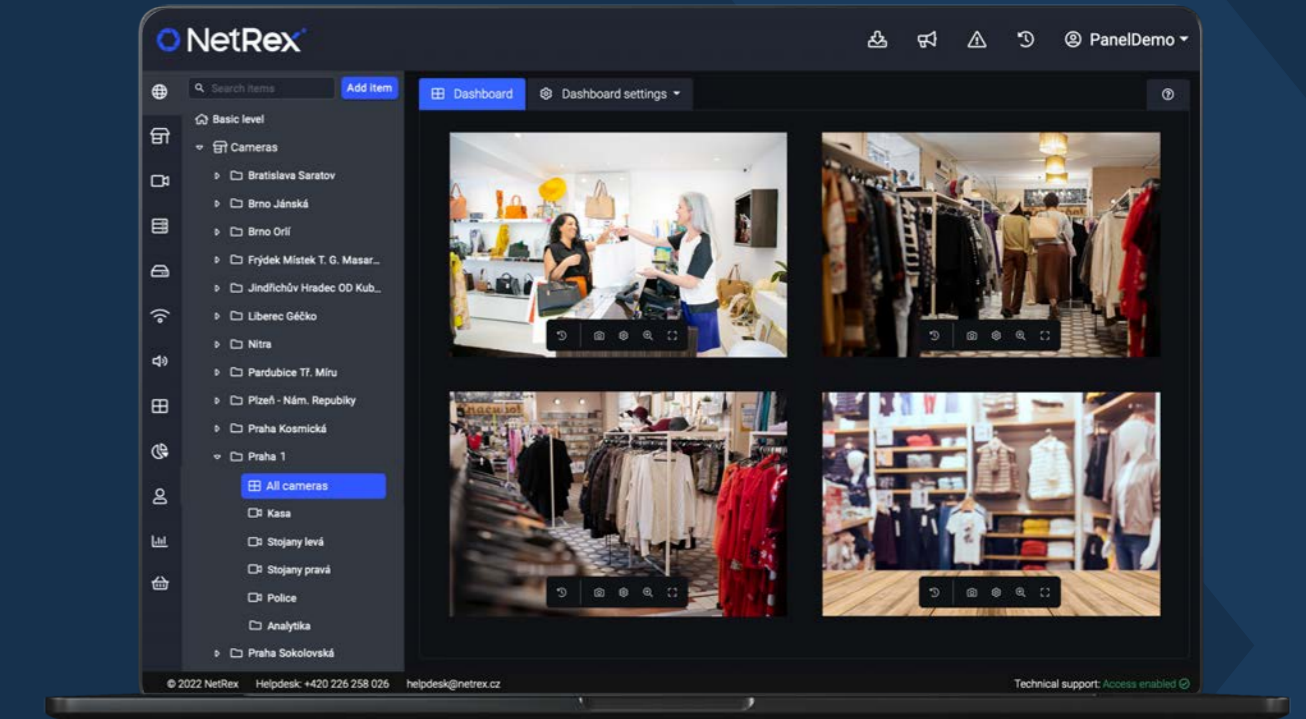

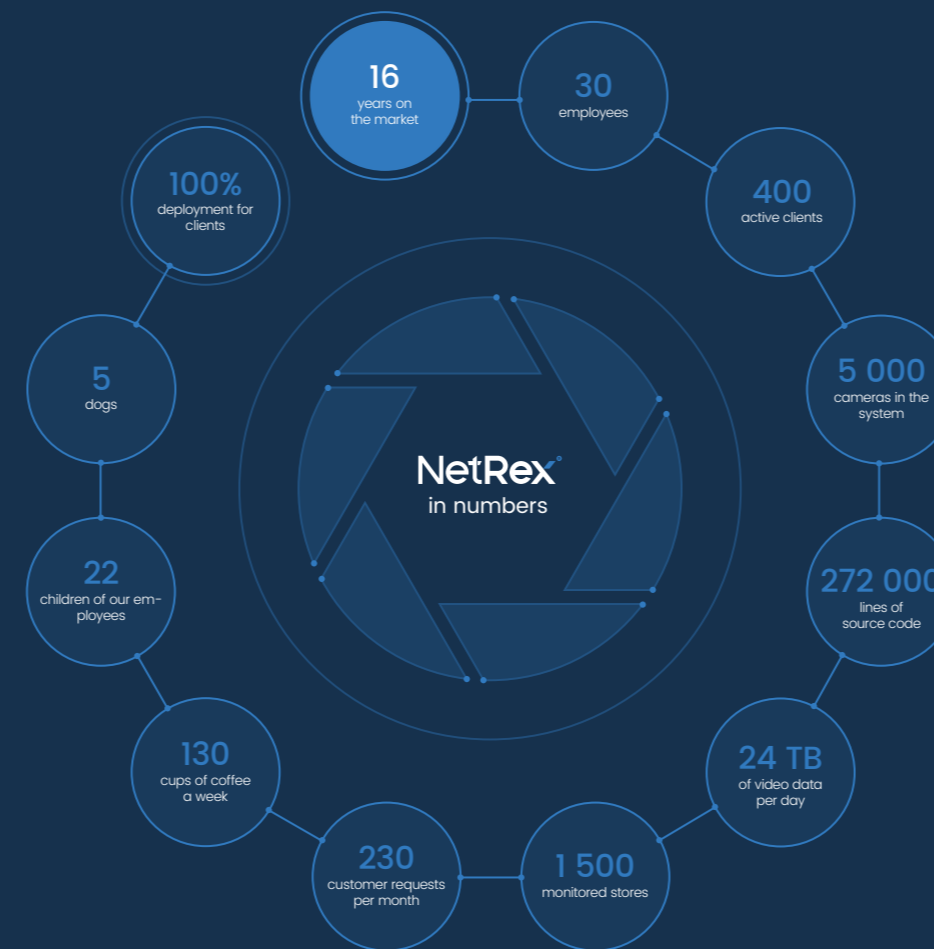

Support

Our **helpdesk** will help you at any time. In most cases, we can solve the problem remotely without a technician having to come out.

Who is NetRex?

We are a leading **IT company** offering **hosted video** services for **professional installations**. Since 2006, we have been continually exploring and discovering ways to **deploy modern network video technologies** with the ubiquitous internet. We strive to bring new ways to provide security, better control, and increase work efficiency.

We are a Czech company with a **presence and many installations in most European countries**. We have a **strong development team** and our close cooperation with the leading **IP camera** manufacturer, Swedish company **Axis Communications AB**, allows us to provide operational solutions to fulfill even the most demanding customer requirements. We believe that our services under the banner **"NetRex – Your Third Eye"** will appeal to you as well.

NetRex Monitor

This service allows the viewing of live video. Browse camera recordings from various locations quickly and easily in one place.

Just do it smart!

Certification & Membership:

Why NetRex Monitor and what surveillance capabilities it provides

01 Have everything under control (LIVE AND RECORDED)

- Connect AXIS IP cameras to the NetRex platform.
- Continuous monitoring of sites from multiple cameras in one place.
- Follow events in real time or from a recording.

04 Browse quickly and easily (RECORDINGS)

- Easy and efficient search with the SmartSearch function – filter recordings according to movement in certain areas of the camera's view (e.g. around the checkout, a specific shelf or warehouse door) – individual zones can be preset.
- Thumbnails will appear when you hover your mouse over a certain section of the recording timeline to allow for faster reviewing.

02 Verify important checkout operations (CONNECTION WITH CASH SYSTEM)

- Integration between camera system and checkout system.
- Reduce losses thanks to the overview of suspicious transactions (sales, returns, discounts) provided.
- Business data – average order value, sales.

03 Be immediately informed about suspicious situations (NOTIFICATION)

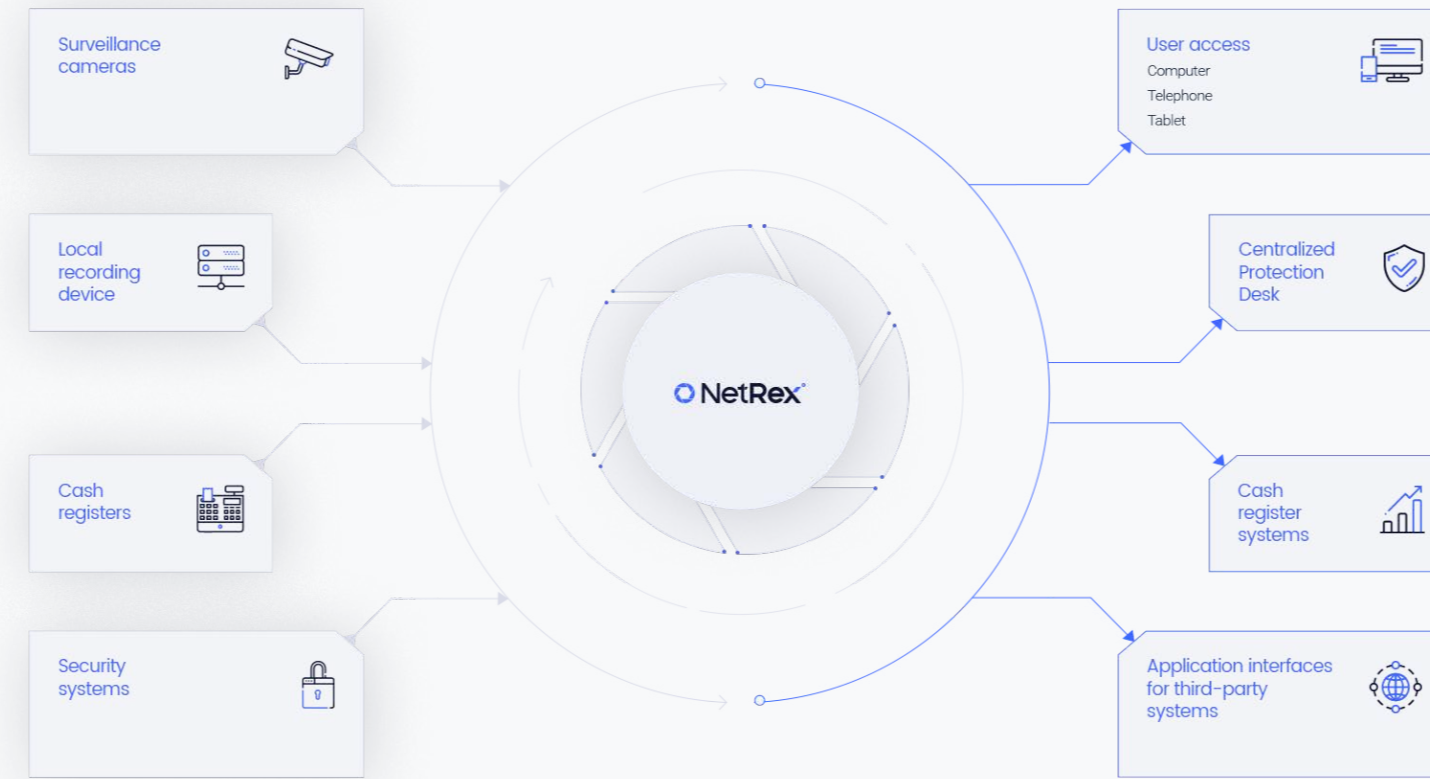

- Complete control of e-mail or smartphone notification settings.
- Alerts whenever the system detects suspicious activity (movement, login to the system by a new user, camera failure etc.).
- Easy click through to the recording from the notification for efficient verification.

NetRex Mobile Application

- Get an overview of what's happening in your workplace wherever and whenever.
- Access the platform from your smartphone to view a live feed and browse recordings.
- Alerts upon detection for preset events.

NetRex Monitor clearly

NetRex Add-ons

The NetRex platform also allows for various add-ons. You can choose from off-the-shelf add-ons or we can also create a turnkey solution for you. You could, for example, receive regular email reports with the times your store opens and closes, photos of the shop window, or even the temperature of freezer boxes. The possibilities are endless!

A unique retail solution

- A combination of surveillance services NetRex Monitor and NetRex Retail Analytics is the ideal pairing to connect cameras with data from individual stores.
